Floor Care

Floor Sealers

Millennia Bright

Dura Prime®

Dura Prime conditions, protects and laminates old and damaged as well as new resilient tile, terrazzo, linoleum.

pH 8.0 – 8.5 #5560

On Base™

A clear, water-based underseal and floor conditioner, On Base is 16% solids and non-yellowing. It resists water marks and scuffs.

pH 8.2 #5555

Shinline Seal®

A popular option to condition, seal and protect, Shinline Seal is a 24% solids, thermoplastic sealer/finish. It is compatible with ultra high-speed floor coatings.

pH 8.3 #4004

Terra Glaze®

Terra Glaze is a one-coat acrylic polymer seal developed exclusively for terrazzo. It is 25% solids and leaves terrazzo with a high gloss in just one fast drying, durable coat.

pH 8.2 #5810

Floor Finishes

Glacier®

A zinc free, metal free, high solids, high gloss seal and finish designed with environment in mind. Glacier contains no ingredients suspected or known to negatively affect water treatment and purification systems. *pH 8.0 #4000*

Green Solutions® Floor Seal & Finish

Our most environmentally preferred finish, this product is an acrylic co-polymer-based floor seal and finish. It was formulated without heavy metals, glycol ether, or formaldehyde. Very low ammonia. Green Solutions Floor Seal & Finish is an environmentally preferable choice.

pH 7.8 – 8.2 #3504

High Frontier®

High Frontier is a thermoplastic floor coating for use in aggressive buffing programs. Buffing this 20% solids finish actually increases the intensity of gloss.

pH 8.7 #4012

Floor Finishes

iShine™ FLOOR COATING & FINISHING MATERIAL AS TO SLIP RESISTANCE ONLY

Spartan's most popular finish year after year, iShine is 25% high solids with patented, optically enhanced polymer technology. This finish beautifully amplifies overall gloss and clarity of floors.

pH 8.0 – 9.0 #4055

Millennia Bright Dura Gloss Laminate®

This product is a durable, brilliant clear gloss laminate offering easy application, repair and removal.

pH 8.0 – 8.5 #4060

On an' On® FLOOR COATING & FINISHING MATERIAL AS TO SLIP RESISTANCE ONLY

Durable, long-lasting shine is what you get from On an' On, a 25% solids non-buff, metal interlock finish. It requires fewer coats, levels smoothly and applies with ease, reducing labor and saving you money. On an' On may be spray buffed.

pH 9.1 #4073

Pro-Shine

Pro-Shine is a 22% solids, high gloss acrylic emulsion modified with urethane for use with high-speed buffers. Its movability and ease of repair are achieved through use of pressure emulsified polyethylene polymers.

pH 9.0 #4082

Floor Finishes

Sheen 17

If you are looking for a hard, durable finish with a pure acrylic foundation, look no further. Sheen 17 creates a clear gloss with excellent coverage. This non-buff, 17% solids finish is recommended for high-traffic areas with low maintenance budgets.

pH 8.3 #4017

Sunny-Side® FLOOR COATING & FINISHING MATERIAL AS TO SLIP RESISTANCE ONLY

Sunny-Side is an 18% solids, non-buff finish with brilliant, high gloss, durability and easy maintenance. It levels smoothly for the ultimate in gloss. Highly resistant to black heel marking, scuffing, powdering and water spots.

pH 9.1 #4045

The Fixx™

A 25% high solids floor finish and sealer formulated for high and ultra-high speed buffing. The Fixx provides initial deep gloss that will increase over time.

pH 8.0 – 9.0 #4046

TrendSetter® FLOOR COATING & FINISHING MATERIAL AS TO SLIP RESISTANCE ONLY

TrendSetter is a 20% solids, burnishable sealer/ finish for use with high-speed machines. It provides "wet look" gloss, level finish, extended durability and substantial labor savings.

pH 8.7 #4010

TriLinc®

A premium 25% non-volatile solids ultra performance high-speed floor finish that will not yellow or fade. TriLinc's exclusive formula is urethane fortified for extreme durability.

pH 8.0 – 8.5 #4030

Floor Finishes

Upper Limits®

This ultra high-speed floor finish features 20% solids and clear, hard gloss plus the toughness of thermoplastics. Upper Limits is recommended when once-a-week buffing is preferred.

pH 8.3 #4090

White Sun®

White Sun is Spartan's futuristic high gloss floor finish with 18% solids. It teams an economical formula with optical enhancers, autofocus gloss and clarity.

pH 8.0 – 9.0 #4050

Specialty Floor Finishes

Glossy Black Floor Finish

This product provides a metal interlock formula with pigment that produces a brilliant, super gloss black finish.

pH 9.1 #4013

N/C No Charge® Static Dissipative Floor Finish

A finish for ESD floor care programs, N/C aids in the prevention of an accumulation of electrical charges. The finish dissipates electrical charges from the human body or from an object on the floor while it provides high shine and exceptional gloss, depth and clarity.

pH 8.5 – 9.0 #4013

KEY	
	This product supports sustainable initiatives.
	This product meets the Green Seal™ standard for industrial and institutional floor care products based on its reduced human and aquatic toxicity and reduced smog production potential.
	Product available worldwide.

Restorers, Spray Buffs & Specialty

Bounce Back®

Bounce Back is a floor finish restorer formulated with thermoplastic polymers and detergents for fast and easy finish touch-ups. Simply mop it on and then dry buff for a “just-waxed” shine!

pH 8.3 #4330

Marble Polish

Keep your stone floors beautiful with this ready-to-use polishing cream. It restores the original high gloss and color of natural marble, onyx, and travertine floors while removing surface scratches and wear spots.

pH < 1 #4088

Spraybuff

Spraybuff is a blend of detergents and polymers that removes black-heel and scuff marks without disturbing the finish on the floor. Use of Spraybuff minimizes floor care maintenance and restores shine.

pH 10.2 #4440

SunSwept®

This floor cleaner and shine restorer is exclusively for use with automatic scrubbers. It cleans while intensifying shine.

pH 7.8 – 8.2 4 oz./gal. #4064

Super Spraybuff

Spraybuff is a solvent-based detergent and polymer emulsion. It deep cleans, repairs and restores the shine of high gloss finishes. It will not yellow and is powder resistant.

pH 9.2 #4450

Choosing a Floor Finish

Choosing a floor finish can be confusing and difficult. Using the chart below you can eliminate finishes that do not fit into your maintenance program.

We suggest that you use these results as a guide. Your local distributor representative and Spartan Regional Manager are excellent resources as well. Be sure to ask questions and test the products to find the finish that gives the best results.

		Dust Mopping & Wet Cleaning				Burnish Frequency				Recoating	Traffic	Expectations			Initial # of Coats
